WALTHER HANDGUNS

THE HISTORY

At WALTHER innovation has been an enduring tradition – for 130 years. WALTHER's state-of-the-art research and production facilities, which extend over more than 12,000 square meters, are where visions become reality for the arms market of tomorrow.

Certified quality and environmental management.

WALTHER's renowned models are manufactured according to the highest quality standards. Its quality and environmental management system is certified to DIN EN ISO 9001:2008 and DIN EN ISO 14001:2004.

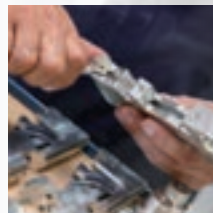

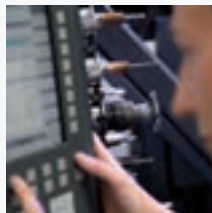

This means that WALTHER's customers and business partners can be sure of getting excellent products and flexible, reliable service.

Top-quality guns for sport, defense and police use.

Today WALTHER is one of the leading manufacturers of weapons for sporting and police use. Police units, armed forces and sport shooters have the highest regard for the performance of these sophisticated rifles and handguns. The name WALTHER has been inseparably linked with police pistols for 130 years. These weapons meet the highest possible standards of quality and reliability.

PPQ, P99 and PPS.

The series of world-famous police pistols began with the now legendary Walther PPK. Today the innovative models of the PPQ/P99 family cover all the various needs of professional users. The reliable P99 and PPQ pistols are used by the police in several German states, the Royal Malaysia Police, the Polish National Police, the Dutch Police, the National Police Agency of Taiwan, the Chilean Air Force and numerous other agencies around the world.

4" MODEL

PPQ M2 9MM

1 Low profile 3-dot steel sights.

Phosphorescent markings. Rapid aiming and target acquisition. Rear sight drift-adjustable for windage, front sight interchangeable. Low profile won't snag clothing.

2 MIL-STD-1913 Picatinny rail.

Mounts optional flashlight or laser.

3 Tenifer™ coated slide and barrel.

Resists corrosion. Matte finish.

4 Serrated trigger guard.

Perfect for tactical two-handed grip stance.

5 Quick defense trigger.

Smooth, light 25 N trigger pull for all shots. Short 7 mm trigger travel with safety and 2.5 mm trigger reset for fast, accurate second shots. Facilitates double-taps. Superb trigger feel aids accuracy.

6 Ambidextrous magazine release button.

Conveniently positioned for thumb operation. Reversible for right or left hand operation.

7 Ergonomic Walther grip.

Comfortable shape. Non-slip crossdirectional grip surface for better control.

8 Ambidextrous slide stop.

Slide locks back on empty. Slide stop is extended for easy gloved operation.

9 Front and rear slide serrations.

Non-slip surface to operate the slide smoothly. Distinctive Walther styling.

10 Interchangeable backstrap

Small / medium / large inserts change in seconds.

Customize the grip to fit your hand for comfort, trigger finger reach, fast recoil recovery, and natural point of aim.

FEEL THE DIFFERENCE OF PRECISION ENGINEERING.

The Walther PPQ is a smooth-shooting, precision-engineered masterpiece. The PPQ M2 has a traditionally positioned magazine release button, reversible for right-hand or left-hand operation. A smooth quick-defense trigger delivers accurate and fast follow-up shots. Interchangeable backstraps ensure that the sculpted grip meshes comfortably in your hand for greater control.

5" MODEL

PPQ M2

AN EXTENDED BARREL FOR GREAT ACCURACY AND VELOCITY.

The smooth-shooting PPQ M2 is available with a 5-inch barrel. Extended barrel length offers a longer sight radius for greater accuracy and an increase in muzzle velocity. A smooth quick-defense trigger delivers accurate and fast follow-up shots. Interchangeable backstraps ensure that the sculpted grip meshes comfortably in your hand for greater control. The PPQ M2 5" is everything you desire in a high performance handgun.

Delivery contents:

- 2 15-round magazines (optional 17-round)
- Magazine speedloader
- Adjustable polymer 3-dot sights, white

Shown with optional 17-round magazine

NEW

Q5 MATCH

DYNAMICS & PRECISION

With its 5-inch slide the PPQ M2 unmistakably shows that it is made for sport shooters, and it has proved itself in many competitions. In addition to the longer sight radius it offers shooters excellent balance and trigger characteristics that are unequalled by any pistol in its class. The new large-caliber WALTHER Q5 Match goes a step further: its sportier slide sets it apart from the standard PPQ M2 5". The grooves at the rear facilitate rapid but safe loading. Recesses at the front save weight and let the slide move forward more quickly.

Q5 MATCH

The Q5 Match is supplied with three interchangeable adapter plates for red-dot sights from Trijicon, Leupold and Docter/Meopta. The neutral adapter plate holds an LPA click sight with elevation and windage adjustments, and the matching LPA front sight additionally has a fiber-optic insert (please note: these components have a different dovetail mount and do not fit the standard PPQ models).

Delivery contents:

- With tuned AFC trigger bar
- 3 15-round magazines
- Click adjustable LPA match rear sight
- LPA fiber optic front sight
- 3 adapter plates prepared for red dot sights: Docter sight, Trijicon, Leupold

A red-dot sight is not included

ADAPTER PLATES

PPQ M2 NAVY SD

Delivery contents:

- 1 15-round, 1 17-round magazine
- Magazine speedloader
- Phosphorescent steel sights
- 117 mm barrel with threaded muzzle (1/2" x 28)
- Tenifer™ coated steel parts
- Anti-friction coating for magazines

For operations in and near water. Developed in collaboration with special forces: The PPQ M2 NAVY SD is WALTHER's pistol for tough police missions.

Power in spite of water resistance.

The firing mechanism of the WALTHER PPQ NAVY has been optimized for operations in and near water.

NEW

PPQ M2.45 AUTO

New: PPQ M2 in .45 Auto

This highlights a benchmark for the PPQ line and fills a gap in the caliber lineup. Its grip is only one mm larger in circumference than that of the 9-mm version, providing unusually good ergonomics for a .45 auto pistol. All other features are the same as with the M2 in 9 mm.

Delivery contents:

- 2 12-round magazines
- 3-dot phosphorescent steel sights

PPQ M2 .22 L.R.

INTRODUCING THE FINEST RIMFIRE HANDGUN IN THE WORLD.

The PPQ M2 .22 is the best of both worlds. By combining smooth-shooting, ergonomically-advanced components of the PPQ with the fun and cost savings of .22 rimfire, you have the pleasure of shooting shot after shot both accurately and affordably.

Delivery contents:

- 2 12-round magazines (optional 10-round)
- Click adjustable metal rear sight
- 4" with polymer front sight
- 5" with fiber optic front sight
- Tactical SD with 4,6" threaded barrel 1/2x28

THE CHOICE OF LAW ENFORCEMENT AROUND THE WORLD.

Tough, rugged and reliable, the P99 is a solid choice for law enforcement agencies or any shooter who wants a gun that delivers solid performance in the harshest conditions. Available in full and compact size, you can customize the ergonomic grip using interchangeable backstraps to fit your hand for greater control, comfort and natural point of aim.

eser

P99

P99

SOLID. VERY SOLID.

The WALTHER P99 is a solid choice for performance under the harshest conditions.

Shown with 15 round magazine.

3 Safeties.

Two drop safeties and a firing pin block for safe carry. Plus a decocker.

Interchangeable backstrap.

Small/medium/large inserts change in seconds. Customize the grip to fit your hand for comfort, trigger finger reach, fast recoil recovery, and natural point of aim.

1 Low profile 3-dot metal combat sights.

Rapid aiming and target acquisition. Rear sight adjustable for windage. Low profile won't snag clothing.

2 Weaver accessory rail.

Mounts optional flashlight or laser.

3 Tenifer™ coated slide and barrel.

Resists corrosion. Matte finish.

4 Serrated trigger guard.

Perfect for tactical two-handed grip stance.

5 Anti-stress trigger.

Traditional double action. Initial shot 40N trigger pull with 14 mm travel limits accidental discharge under stress. Subsequent shots 20N pull with 8 mm travel.

6 Paddle-style ambidextrous magazine release lever.

Conveniently positioned for thumb operation. Reversible for right or left hand operation.

7 Rear slide serrations.

Comfortable shape. Non-slip cross-directional grip surface for better control.

8 Manual decocker.

Flush with slide to prevent snags.

9 Slide stop.

Slide locks back on empty.

10 Ergonomic WALTHER grip.

Comfortable shape. Non-slip cross-directional grip surface.

11 Several magazine options.

Choose from standard capacity, high capacity or compact. Adapter available to fire full size magazines in compact frame.

CCP 9 mm
Black
508.00.00

INNOVATIVE SOFTCOIL GAS TECHNOLOGY.

When the trigger of the CCP is squeezed and the striker hits the cartridge, the bullet is set in motion. Once it passes the barrel's gas port, some of the gas generated by the ignited propellant is directed through the port into a gas cylinder. The gas pressure in the cylinder acts against a piston that's attached to the slide opposing its rearward motion, which effectively lowers felt recoil.

The benefits of SoftCoil Gas Technology extend beyond the softened recoil of the Concealed Carry Pistol. It allowed Walther engineers to specify a recoil spring with decreased tension, resulting in a slide that's easy to manipulate and a shooter that remains focused and accurately on target.

WALTHER A GERMAN SUCCESS STORY

This book, available in two volumes, was conceived to celebrate the 125-year anniversary of Carl Walther GmbH. This successful German company had its beginnings in the 19th century in the town of Zella St. Blasii (Thuringia), as a gunsmith workshop.

The first book begins with an overview of the events that occurred in the early 1990s, which brought the hand of fate in leading the WALTHER Company to merge with the Umarex Group. The historical portion addresses the origin of the WALTHER family business.

The second volume begins with the 1993 management change and is dedicated to the dynamic advances WALTHER made in the world market. By creating new models and developing innovative sports promotions, WALTHER has firmly positioned its company in the new century.

This is an amazing combination of history, innovation, and photography. If you are a firearms enthusiast or history buff, this book will be a valuable addition to your collection.
